Pre-pack plan for insolvency to be tested with MSMEs

As the government readies to roll out pre-packaged insolvency solutions for micro, small and medium enterprises (MSMEs), it has suddenly discovered that the plan could be held up in procedural issues.

The ministry of corporate affairs (MCA) - which has already held detailed consultations with stakeholders, including the Insolvency & Bankruptcy Board of India (IBBI) - is looking at ways to implement the decision to have a special window for MSMEs, given that the law requires government to first place the notification in Parliament for 30 days.

Need to unshackle banks, insurance sectors from 'over protection', says Finance panel chief

Asserting that banking and insurance sectors remain "overprotected" in the economy, the 15th Finance Commission Chairman NK Singh on Monday made a case for Indian policymakers to visit these sectors with the same kind of liberalisation process as was seen in rest of the economy in 1991.

"When we opened the Indian economy in 1991, one of the sectors that did not really receive fundamental reform initiatives by way of liberalisation and opening up was banking and insurance. It remains overprotected even till this day," Singh said in his virtual address to All India Management Association's Council on the impact of Covid-19 on Indian economy.
